BOOKS AGREEMENTS, 2 P. 11 17X  
297929✓A G R E E M E N T

THIS AGREEMENT, Made and executed the 31st day of December, 1956, between SILVER BOWL, INC., an Idaho corporation, with its principal place of business and registered office at Kellogg, Idaho, Party of the First Part, hereinafter called "Silver Bowl," and THE BUNKER HILL COMPANY, a Delaware corporation, which is duly qualified to do business in the State of Idaho, Party of the Second Part, hereinafter called "Bunker Hill;"

## R E C I T A L S:

Silver Bowl is the owner of a number of patented and unpatented lode mining claims situated in Shoshone County, Idaho, among which is a group of claims commonly known as the "Stewart Group" and which group is contiguous to mining claims and property owned by Bunker Hill.

Bunker Hill is a successful mining and smelting company and within its property and adjacent to the Stewart Group has developed and is operating its Bunker Hill Mine. The Bunker Hill Mine has been developed to a depth in excess of four thousand (4000') feet below the earth's surface, with intermediate working levels above such depth.

In the last several years there has been but a limited amount of exploration and development work carried on in the Stewart Group and there has been no appreciable amount of ore production from the property for a matter of thirty-five years or more. At the present time there is no known or developed ore body in the Stewart Group. The property is subject to a mortgage judgment which, with accrued interest to December 31, 1956, is in the amount of One Hundred Fifty-nine Thousand Three Hundred Thirty-nine and 54/100 (\$159,339.54) Dollars. By an order of the District Court of the First Judicial District of the State of Idaho, and for the County of Shoshone,

USEPA SF

7

in case No. 11479, dated April 30, 1953, a stay of execution sale on the mortgage judgment has been granted to May 2, 1958.

Silver Bowl is desirous of exploring its Stewart Group at depth in a search for commercial ores, but at the present time is without adequate resources to carry forward such a program. Silver Bowl appreciates that at a great saving of cost and time the Stewart Group can be advantageously explored for possible commercial ores from extensions of workings from within the Bunker Hill Mine Southerly of the Stewart Group, and Silver Bowl is desirous that Bunker Hill from its mine workings to the South shall investigate and explore the Stewart Group looking to the discovery of commercial ores which, if discovered, may be developed and mined expeditiously and economically from and through such Southerly workings of the Bunker Hill Mine.

Page 1  
mummy

The common Southerly boundaries of the Stewart Group and Northerly boundaries of the Bunker Hill properties are irregular in direction and will, unless changed, create difficulties in the division of ores or proceeds of ores discovered and mined hereunder. In aid of and as a basis for this operating agreement and the division of ores and proceeds of ores therein provided for, and to avoid future disputes with respect to ore ownership, the parties desire to hereby permanently fix and determine their respective property rights by establishing a bounding plane partly vertical and partly inclined striking approximately East-West, dividing unto Silver Bowl the hereinafter described property Northerly thereof and unto Bunker Hill the hereinafter described property Southerly thereof.

NOW, THEREFORE, in consideration of the mutual promises and covenants to be kept and performed by each of the parties hereto and the

297829

money advances and expenditures to be made by and on the part of Bunker Hill, and the mutual benefits to be derived therefrom, it is agreed between the parties as follows, to-wit:

L.

Bunker Hill agrees to advance to Silver Bowl the funds necessary for the payment of the mortgage judgment above referred to in the agreed amount of One Hundred Fifty-nine Thousand Three Hundred Thirty-nine and 54/100 (\$159,339.54) Dollars, together with the interest accruing thereon at the rate of six (6%) per cent per annum after December 31, 1956, as follows:

The sum of Twenty-six Thousand Five Hundred Fifty-six and 59/100 (\$26,556.59) Dollars upon the execution of this agreement, the receipt whereof is hereby acknowledged by Silver Bowl, Inc., and a like sum of Twenty-six Thousand Five Hundred Fifty-six and 59/100 (\$26,556.59) Dollars, together with the accrued interest on the remaining unpaid mortgage judgment balances at six (6%) per cent per annum on March 1, 1957; June 1, 1957; September 1, 1957; February 2, 1958, and May 1, 1958, except that Bunker Hill shall have the privilege to accelerate such payments in any manner it may deem advisable.

Concurrently with the execution of this agreement Silver Bowl shall execute and deliver to Bunker Hill a pledge agreement to secure the repayment to Bunker Hill of the amount of its advances made for the satisfaction of the mortgage judgment, as aforesaid, under the terms of which it shall pledge to Bunker Hill a total of seventy thousand (70,000) shares of the capital stock of Federal Uranium Corporation, and thirty-five thousand (35,000) shares of the capital stock of Radorock Resources, Inc. Such pledge agreement shall provide that such security is placed with the Bunker

297329

Hill as collateral for the repayment of the sums so advanced which shall be evidenced in each instance by the execution and delivery from Silver Bowl to Bunker Hill of a promissory note for the amount of each payment made by Bunker Hill, and bearing interest on the principal thereof at the rate of six (6%) per cent per annum, and providing in each instance that the sums shall be payable on or before December 31, 1958.

Silver Bowl specifically agrees that as each payment on the mortgage judgment is made to it by Bunker Hill that Silver Bowl will immediately apply said sums and the whole thereof toward the satisfaction of the mortgage judgment.

In the event Silver Bowl is unable to repay the sums so advanced when due, and the proceeds from a liquidation of the collateral is insufficient to pay the full amount of such advances with interest, then the resulting amount in deficiency shall be considered an advance under the provisions of clause VII of this agreement.

## II.

There is hereby established the following bounding plane, viz:

A plane which dips South 65° from and below a horizontal plane at an elevation of three thousand feet (3000') above mean sea level, and is vertical above the horizontal plane at an elevation of three thousand feet (3000'). The intersection of the boundary plane and the horizontal plane is a line which is contained in the boundary plane and is common to both the vertical and dipping portions of the boundary plane. The line bears South 69° 39' 43" East, and is 2924.55 feet in length. The position of the Northwest terminus of the line in both the vertical and dipping boundary planes is referred to the Bunker Hill map coordinate net and the coordinated position of the Northwest terminus is determined to lie North 6464.07, West 6654.15. (The Bunker Hill map with coordinates to which reference is herein made

207329

is permanently kept on file and available in the Engineering Department office of The Bunker Hill Company at Kellogg, Idaho.) The position of the Southeastly terminus of the line in both the vertical and dipping boundary planes is likewise referred to the Bunker Hill map coordinate net and the coordinated position of the Southeast terminus is determined to be North 5447.58, West 3911.94. A point at the Northwest terminus of the line and the boundary plane at an elevation of three thousand feet (3000') and a coordinated position of North 6464.07, West 6654.15, when projected vertically to the surface corresponds to the Corner No. 1 of the Royal Knight claim, Survey No. 1639. A point at the Southeast terminus of the line and the boundary plane at an elevation of three thousand feet (3000'), and a coordinated position of North 5447.58, West 3911.94, when projected vertically to the surface corresponds to Corner No. 5 of the Switchback claim, Survey No. 1856.

Based upon the foregoing descriptions, the wedged shaped block of ground formed by the portion of the boundary plane dipping South 65° and the prolongation at depth of the vertical portion of the boundary plane is hereby designated by the parties as Area "A". All of the area North of the vertical portion of the boundary plane and its vertical prolongation at depth and within the Northerly thereof boundaries of the Stewart Group of mining claims and the Northerly thereof portions of the Bunker Hill claims traversed by said plane, is hereby designated by the parties as Area "B".

The bounding planes above described and the Areas "A" and "B" are specifically illustrated for the information of the parties on the attached Exhibit I (a plan property map), and Exhibit II (a vertical cross section), which are by specific reference made a part of this agreement.

Bunker Hill hereby quitclaims to Silver Bowl, Inc., all its rights, titles and interests in and to all real properties and therein contained metals

297329

and minerals situate Northerly of said bounding planes and within the accepted boundary lines of the Stewart Group of mining claims, and Northerly of said bounding planes within the accepted boundary lines of the Bunker Hill mining claims traversed by said planes, and Silver Bowl, Inc., hereby quit-claims to Bunker Hill all its rights, titles and interests in and to all real properties and therein contained metals and minerals situate Southerly of said bounding planes and within the accepted boundary lines of the adjacent Bunker Hill mining claims and Southerly of said bounding planes and within the accepted boundary lines of the mining claims of the Stewart Group traversed by said planes.

III.

Silver Bowl hereby grants to Bunker Hill the full, sole and exclusive possession and control of its Stewart Group consisting of the following patented and unpatented lode mining claims situated in Yreka Mining District, Shoshone County, Idaho, to-wit:

and Stewart Mill Site, located March 21, 1899, recorded April 3, 1899, in Book "M" of Miscellaneous, at page 331, records of Shoshone County, Idaho, and of the other property lying Northerly of said boundary plane herein quitclaimed to it by Bunker Hill. (The whole to be hereafter called the "Stewart Property.")

and the right to enter on and into and take possession of said property and all thereof, and to occupy the same during the entire life of this agreement with the authority to examine, explore, sample, develop, mine, equip and operate said property in whatever manner seems to Bunker Hill most suitable in its uncontrolled discretion.

IV.

The term of this agreement shall be perpetual from the date hereof, subject only to the termination rights of the parties as are hereinafter set forth.

V.

Silver Bowl represents and warrants that subject only to the mortgage judgment before referred to in this agreement, it holds good and merchantable title to the patented lode mining claims described herein and exclusive possessory title, subject only to the paramount title of the United States of America, to the unpatented lode mining claims herein described.

VI.

Bunker Hill agrees that within one (1) year from and after the date of this agreement it will proceed with a program for the exploration of said Stewart Property, which may include surveying, sampling, drilling and such geological determinations as in its judgment are required to program a practical exploration project with respect to the Stewart Property. Bunker Hill agrees that after commencement of exploration it will expend thereafter at least the sum of Twelve Thousand (\$12,000.00) Dollars in

297329

each year during the life of this agreement in the exploration or development of the said Stewart Property, but in this connection it is specifically agreed between the parties that work done from the Bunker Hill Mine workings and within the boundaries of the Bunker Hill holdings, which work has as its ultimate objective the exploration or development of Area "A" or Area "B", as the same are hereinbefore defined, shall be credited as work within the meaning of this clause of the agreement. Within the Area "A" ores discovered shall belong to and be owned seventy-five (75%) per cent by Bunker Hill and twenty-five (25%) per cent by Silver Bowl. Within the Area "B" ores discovered shall belong to and be owned fifty (50%) per cent by Bunker Hill and fifty (50%) per cent by Silver Bowl.

It is not the purpose or intent of the parties that Bunker Hill shall be limited in its exploration expenditures, nor be penalized by the yearly \$12,000.00 work requirement, and to that end it is agreed that expenditures made shall be cumulative for work credit and when expenditures are made in any year or years in excess of said minimum requirement such excess amounts shall be carried forward as a credit upon such minimum requirement for the succeeding year or years.

Notwithstanding the time allowed for Bunker Hill to commence an exploration program of the Stewart Property, Bunker Hill agrees that it will commence prior to June 30, 1957, and thereafter complete sufficient work upon the surface of the Stewart Property to fulfill the annual 1956-1957 work requirement for the unpatented claims covered by this agreement, and will file with the County Recorder of Shoshone County, Idaho, proper Proofs of Labor in the name of Silver Bowl evidencing the performance of the work. The cost of such work shall be considered an advance by Bunker

297329

Hill under clause VII of this agreement and be reimbursable to it as therein provided. Bunker Hill further agrees that it will, in the subsequent years that it holds possession of the said property under this agreement, perform sufficient work in each year to keep the unpatented claims in good standing and will annually file the necessary Proofs of Labor in the name of Silver Bowl.

VII.

Bunker Hill shall be solely responsible for and agrees that it will advance all monies needed and necessary to carry forward a program of exploration for commercial ores within the Stewart Property under the terms of this agreement, and all necessary funds to develop and equip the said property for mining operations, in the event commercial ore is discovered. If as a result of such exploration and development commercial ore is discovered in the said Area "A" and "B" which can be mined profitably, Bunker Hill shall be entitled to reimbursement for all of its advances and expenditures from such ores on the following basis: Notwithstanding the preceding ore ownership provisions of clause VI, until reimbursement to Bunker Hill is complete ninety (90%) per cent of the ores produced from said Areas "A" and "B" shall belong to and be owned by Bunker Hill and ten (10%) per cent shall belong to and be owned by Silver Bowl, the said ores, however, to be subject to all costs and expenses which shall properly be allocable to the mining, milling and marketing of said ore production. After reimbursements to Bunker Hill the ores shall belong to the parties in the ownership proportions provided in clause VI, subject to all costs and expenses which shall properly be allocable to the mining, milling and marketing of said ore production.

297329

Work undertaken by Bunker Hill from its mine workings which has as its objective the exploration of the Stewart Property shall not be charged as an advance by Bunker Hill within the meaning of this clause of the agreement until such work has reached a point five hundred feet (500') from an intersection with any of the bounding planes of the Stewart Property, and thereafter the cost of all work progressing to the exploration of the Stewart Property shall be an advance within the meaning of this clause of the agreement and be reimbursable to Bunker Hill as herein provided. However, should Bunker Hill encounter commercial ore within the area between such a bounding plane and five hundred feet (500') therefrom, the returns received from such ore shall be credited upon the cost of the work conducted in said area, and only the remaining difference in cost, if any, shall be chargeable as an advance to Silver Bowl under this clause of the agreement until such work shall enter either the Areas "A" or "B".

VIII.

Bunker Hill shall at all times have the right to market its share of any and all ores and concentrates which may be produced under this agreement and Silver Bowl shall have the right at all times to market its share of any and all such ores and concentrates. In the absence of instructions to the contrary, Bunker Hill, shall, however, on its own behalf and as agent for Silver Bowl, market the entire production from said properties. If at any time Silver Bowl shall elect to market its share of the ores or concentrates mined by Bunker Hill, it shall give Bunker Hill at least sixty (60) days' written notice of its said election so that Bunker Hill will not obligate itself to deliver a quantity of ores or concentrates under any contract with a smelter or other reduction plant.

287329

IX.

If at any time or times Bunker Hill shall, in accordance with the provisions of the last preceding paragraph, market Silver Bowl's share of the production from said property, Bunker Hill shall, at least quarterly or at such other intervals as may be agreed upon between the respective managements of the parties hereto, remit to Silver Bowl the proceeds from the sale or sales of Silver Bowl's share of said production after deducting all costs and expenses which shall be properly allocable to the mining, milling and marketing of Silver Bowl's share of said production.

X.

If Silver Bowl chooses to take delivery of its share of the ores or concentrates in kind at the mine or mill, it is mutually understood that it would, or might be, inequitable to make a division upon the basis of weights of crude ores or concentrates since it is known that the ore which may be mined from day to day may differ greatly in grade of marketable contents, as well as in content of penalty minerals. It is, therefore, agreed that the proportionate share to be delivered to each party shall be measured upon the basis of the weights and grade of said ores or concentrates. It is also understood that if each party receives its own share of the ores or concentrates mined from said property, said parties may sell to different purchasers and at different prices. It is not the intent of this agreement that any adjustment of ore deliveries to the respective parties hereto shall be such as would deprive either party of the benefit of a more favorable selling contract price than that enjoyed by the other party, and it is, therefore, agreed that each party hereto shall receive from the sale of its share, if any, of the ore sold by the other party an amount equal to the amount which it would have received for such adjusted ore had it sold its share for its own account.

297329

In order to simplify the adjustments between the parties, it is further agreed that if in any particular period ore measured as aforesaid shall be received by either party in excess of its rightful share, then in the next succeeding like period such lesser quantity of ore shall be delivered to such party as will equalize or tend to equalize the ore deliveries to the respective parties. Each of the parties hereto shall immediately upon its receipt of each settlement sheet covering ores and/or concentrates shipped and sold by such party furnish an exact duplicate thereof to the other party, and it is mutually agreed that each party who shall be shipping and selling the product of said property shall keep full and true records of all ores and concentrates shipped and sold by such party, together with a true record of weight and grade thereof, and the price received therefor, or for the mineral content thereof, and such records shall be made available for inspection by the agents or representatives of the other party at any and all reasonable times.

XI.

Bunker Hill shall keep strict account of all costs and expenses which shall be incurred by it in connection with its operations under the terms of this agreement, and quarterly after Bunker Hill shall have commenced operations in and upon said properties it shall furnish Silver Bowl an itemized statement of the costs and expenses incurred by Bunker Hill during the preceding quarterly period, and shall, at the same time, furnish Silver Bowl a written report of the character and amount of work performed, and if commercial ore shall be discovered in said property and actual mining operations commenced, then Bunker Hill shall include in its quarterly reports a statement of the tonnage of ore mined, shipped and sold during said preceding quarterly period. If Silver Bowl shall have any objection to

297329

any such quarterly statement or report furnished by Bunker Hill, it shall, within sixty (60) days after its receipt of such statement or report, furnish Bunker Hill a written statement of its objections, and upon its failure so to do, such statement shall be considered and treated as correct in all respects and may not thereafter be questioned; provided, that if at any time Bunker Hill shall agree with its employees or their bargaining representative upon a retroactive wage increase, then Bunker Hill shall have the privilege of amending any prior statement in which such retroactive increase in wages was not reflected.

#### XII.

If commercial ore shall be discovered in said property, or any part thereof, and if out of production Bunker Hill shall have become reimbursed, as in clause VII above provided, then from and after the date on which Bunker Hill shall have become so reimbursed it will at or near the end of each calendar month bill Silver Bowl for its proportionate share, to-wit: Twenty-five (25%) per cent of all costs and expenses incurred by Bunker Hill in connection with its mining operations in the defined Area "A", and for fifty (50%) per cent of all costs and expenses incurred by Bunker Hill in connection with its mining operations in the defined Area "B" for the preceding calendar month, and payment therefor shall be made by Silver Bowl promptly upon its receipt of said billing or for the sake of convenience Bunker Hill may, at its option, deduct the full amount of Silver Bowl's proportionate share of such costs and expenses and remit to Silver Bowl with its other quarterly statement only the balance of its share of the proceeds from the sale of such ore. It is agreed, however, that if Silver Bowl's said proportionate share of said costs and expenses shall at any time exceed its share of the net proceeds from the sale of ore which is being currently mined and marketed

297329

by Bunker Hill after deducting the amount of any and all State and Federal income taxes for which Silver Bowl may be liable upon its income from said property, the deficiency shall be carried forward by Bunker Hill as a charge and advance within the meaning of clause VII of this agreement, and be reimbursed from future production after making the aforesaid deductions for taxes.

XIII.

Bunker Hill agrees that if on its own behalf and as agent for Silver Bowl it markets the entire production from said property and delivers such production to its own smelter or smelters that the prorata share of Silver Bowl shall be settled for by the smelter or smelters on settlement schedules which shall not be less favorable than the schedules for ore and concentrates of similar grade and quality treated by Bunker Hill for other unrelated producers in the Coeur d'Alene Mining District of Northern Idaho.

XIV.

At all reasonable times the accredited representatives of Silver Bowl shall have access to the said Stewart Property covered hereby, to the plants handling the ores, and to the metallurgical and financial records and to the maps pertaining thereto so as to be currently informed and assured as to the correctness of the accounts which Bunker Hill shall render quarterly. The right of Silver Bowl's representatives to enter said Stewart Property and the plants of Bunker Hill shall be at Silver Bowl's sole risk; and Silver Bowl shall indemnify and hold Bunker Hill harmless from any damage, claim or demand by reason of injury to or presence of Silver Bowl's representatives at said property or plants.

297329

XV.

Bunker Hill shall not be under obligation to mine or otherwise operate the said property during such time as it shall be prevented from doing so by causes beyond its control, including labor troubles or when the lower grade of the ores or low metal prices shall render operations hereunder unprofitable, and during any such period or periods Bunker Hill shall be excused from the minimum work requirements hereunder, excepting only the obligations to take care of said property as though it were the owner thereof, and to perform all required representation work on unpatented claims, and to maintain the same free from any lien resulting from its occupation or operation.

XVI.

In the event that commercial ore is discovered in said Stewart Property and mining operations are thereafter conducted upon the property, if at any time such operations become unprofitable, whether by reason of ores of low grade, or otherwise, development and other expenditures made by Bunker Hill in an endeavor to restore the said property to profitable operation shall be considered as expenditures and advances by Bunker Hill under clause VII hereof, to be reimbursed as therein provided.

XVII.

At all times throughout the life of this agreement Bunker Hill shall strictly comply with all State and Federal laws, rules and regulations relating to Workmen's Compensation, Social Security, Unemployment Compensation, hours and conditions of employment of labor, etc.

XVIII.

Bunker Hill reserves the right, hereby expressly granted, to terminate this agreement at any time after December 31, 1958, by giving

297329

Silver Bowl sixty (60) days' previous notice in writing of its intention so to do, and Bunker Hill's obligations on said property shall cease at the expiration of said sixty (60) day period, and upon termination of this agreement, as herein provided, Bunker Hill shall be under no further liability whatsoever other than to return the said Stewart Property to Silver Bowl, (it being agreed that such bounding planes and the mutual quitclaim shall not be affected by any termination of this agreement), and to pay all bills and obligations incurred by it, and Bunker Hill shall have the right to remove from said property all buildings, supplies, tools, implements, equipment, machinery, etc., placed thereon by Bunker Hill for which Bunker Hill shall not have been previously reimbursed. In event of the termination of this agreement for any cause Bunker Hill shall in the future have no right to make claim for reimbursement of any expenditures which may have been made by it for the development or operation of the property during the life of this agreement.

XIX.

Any and all work which shall be performed by Bunker Hill under the terms of this agreement shall be performed in a good, minerlike fashion, and in accordance with good mining practices.

XX.

It is agreed between the parties that should Bunker Hill determine it to be advisable to amend the locations of any of the unpatented mining claims, it shall have the right to do so filing amended location notices in the name of Silver Bowl, Inc., and it is additionally agreed that Bunker Hill shall have the right to institute patent proceedings on any unpatented mining claims covered by this agreement. The cost of amending claim locations and the cost of patent proceedings shall be chargeable to the

297329

operations on the Stewart Property, but not otherwise. Should Dunker Hill determine to institute such patent proceedings, Silver BowI agrees to cooperate in the necessary proceedings to obtain patent in the name of Silver BowI.

In the event any litigation should occur which involves the property covered by this agreement, it is understood and agreed that Dunker Hill will have control of the prosecution or defense of such litigation and will receive the full cooperation of Silver BowI, and all costs and expenses in connection with such litigation will be chargeable to the operations on the Silver BowI property, but not otherwise.

XXI.

Silver BowI reserves the right, herein expressly granted, to remove within one (1) year from the date of this agreement, all existing buildings and machinery and equipment situated on its Stewart Group of mining claims.

XXII.

It is understood and agreed that if any controversy or dispute shall arise between the parties hereto with respect to any provision of this agreement or with respect to any act or thing done or omitted to be done by either of the parties hereto, such controversy or dispute shall be settled, if possible, by conferences between the managements of the respective parties, but if such controversy or dispute cannot be so settled then the same shall be referred to a panel of three (3) arbitrators. One member of such panel shall be chosen by Silver BowI and one member by Dunker Hill and the two members thus chosen shall select a third member. Any and all data which shall be requested by such panel shall be promptly furnished by the party in possession of the same and said panel's determination of such

297329

controversy or dispute by a majority vote of the members of said panel shall be accepted as final and binding.

XXIII.

If Bunker Hill shall fail to keep or perform any covenant or agreement required to be kept and performed according to the terms and provisions of this agreement, Silver Bowl may, at its option, and upon giving notice thereof to Bunker Hill, declare a forfeiture; provided, however, that in the event of such default on the part of Bunker Hill and the election by Silver Bowl to declare a forfeiture Silver Bowl shall give Bunker Hill written notice of its intention to declare a forfeiture and to terminate the agreement, specifying the particular default or defaults relied upon by Silver Bowl. Such forfeiture shall not become effective if the default or defaults are remedied by Bunker Hill within sixty (60) days after receipt of such notice or within sixty (60) days from and after it shall have been determined by arbitration that such default or defaults existed, if the question shall have been submitted to arbitration.

XXIV.

This agreement shall be construed and enforced under and in accordance with the laws of the State of Idaho, except insofar as it may become necessary to comply with Federal statutes, rules and regulations with respect to Bunker Hill's operations under this agreement.

XXV.

Any notice provided for herein shall be sufficiently given if sent by registered mail addressed to the party entitled to receive the same, as follows:

To: Silver Bowl, Inc.  
410 Main Street  
Kellogg, Idaho

297329

To: The Bunker Hill Company  
P. O. Box 29  
Kellogg, Idaho

except as either party hereto shall hereafter instruct the other party by  
written notice to be appended to this agreement.

XXVL

This agreement shall inure to the benefit of and be binding upon  
the successors and assigns of the respective parties hereto.

IN WITNESS WHEREOF, the parties have caused this agreement  
to be executed in triplicate counterparts in their respective names and  
under their respective corporate seals by their duly authorized officers  
the day and year in this agreement first above written.

STEWART GROUP (SILVER BOWL INC.)

297329

RIGHT-OF-WAY DEED

THIS INDENTURE, Made this 9<sup>th</sup> day of March, 1977,  
 by and between THE BUNKER HILL COMPANY, a Delaware corporation,  
 PARTY OF THE FIRST PART; and SHOSHONE RECREATION, INC., an Idaho  
 corporation, whose address is P. O. Box 29, Kellogg, Idaho 83837,  
 PARTY OF THE SECOND PART.

## W I T N E S S E T H:

That the said party of the first part, for and in  
 consideration of the sum of One Dollar (\$1.00), lawful money  
 of the United States of America, and other good and valuable  
 considerations to it in hand paid by the said party of the second  
 part, the receipt whereof is hereby acknowledged, does by these  
 presents remise, release and forever QUITCLAIM unto the said  
 party of the second part, and to its successors and assigns,  
 forever, all its right, title and interest in and to that certain  
 lot, piece and parcel of land situate, lying and being in Shoshone  
 County, State of Idaho, and being more particularly described as  
 follows:

The surface rights for that certain right-of-way  
 described as follows, to-wit:

Beginning at a point which lies on the center  
 line of the Wardner City Street, known as Sierra  
 Nevada Road and the Western boundary of the  
 Wardner City Limits and then in a Northwesterly  
 direction along the constructed road, known as  
 the Jackass Ski Bowl Road, which meanders to a  
 point on the ridge East of Deadwood Gulch, con-  
 tinuing in a Southwesterly direction across the  
 section line between Section Eleven (11) and  
 Twelve (12), Township Forty-eight (48) North,  
 Range Two (2) East Boise Meridian; thence to a  
 point on Deadwood Creek which lies 800 feet more  
 or less Northwesterly of the Southwest corner of  
 Section Twelve (12), Township Forty-eight (48)  
 North, Range Two (2), East; thence in a North-  
 westerly direction to a point on the ridge on  
 the West side of Deadwood Gulch which lies South-  
 westerly 2150 feet more or less of the Northwest  
 Corner of Section Twelve (12), Township Forty-  
 eight (48) North, Range Two (2) East; thence in a

Southerly direction to a point on the Section line between Sections Eleven (11) and Fourteen (14), Township Forty-eight (48) North, Range Two (2) East, which is 1100 feet more or less Westerly of the Northwest Corner of Section Thirteen (13), Township Forty-eight (48) North, Range Two (2) East; thence in a Southeasterly direction to a point on the section line between Sections Thirteen (13) and Fourteen (14), Township Forty-eight (48) North, Range Two (2) East, a distance of 500 feet more or less Southerly of the Northwest Corner of Section Thirteen (13), Township Forty-eight (48) North, Range Two (2) East; thence in a Northeasterly direction to a point 750 feet more or less, due East of the Northwest Corner of Section Thirteen (13), Township Forty-eight (48) North, Range Two (2) East, and then continuing Northeasterly to a point on the ridge between Deadwood Creek and Milo Creek; thence in a Southerly direction to a point on a fork of Milo Creek which lies 2150 feet more or less in a Northeasterly direction of the Southwest Corner of Section Thirteen (13), Township Forty-eight (48) North, Range Two (2) East; thence in an Easterly direction to a point on a ridge which lies 2700 feet more or less in a Northeasterly direction of the Southwest Corner of Section Thirteen (13), Township Forty-eight (48) North, Range Two (2) East; thence in a Southeasterly direction to a point which lies East 2550 feet more or less of the Southwest Corner of Section Thirteen (13), Township Forty-eight (48) North, Range Two (2) East; thence in an Easterly direction to a point known as the Lodge Site which lies in a Southwesterly direction 500 feet more or less from the Southeast Corner of Section Thirteen (13), Township Forty-eight (48) North, Range Two (2) East; and consisting of 5.5 miles more or less of roadway, as shown on Exhibit "A" attached hereto and by this reference incorporated herein.

Also, excepting and reserving unto the said party of the first part, its successors and assigns, from and out of the granted premises all mines and mineral deposits of whatsoever kind or nature, not now known but which may hereafter be discovered, lying in and under the premises hereby conveyed with the full right to mine and remove said mines and minerals by underground workings only and without entering upon or in any nature affecting or exercising any rights or powers whatsoever in and to the surface of the property hereby conveyed; also, excepting and reserving unto first party, its successors and assigns, the right to explore in and through the subsurface of said premises, by means of subsurface mine workings, drillings, or otherwise, for metals and mineral substances located therein or elsewhere, and the right to construct therein and use any subsurface mine workings, passageways, and other openings desired by first party for or in connection with its mining, removal and transportation of metals, minerals and other materials located outside the granted premises;

also, excepting and reserving unto the said party of the first part, its successors and assigns, an easement for the deposit on and passage over the premises hereby conveyed of smoke, fumes, gases, solid materials of every kind and nature which may be caused by the operations of the plants or properties of the party of the first part; further, the party of the second part does expressly release the party of the first part for damages and claims of damages of every kind and nature caused or to be caused by the dumping of tailings, waste materials, debris of every kind or nature, or any other substances, in the Coeur d'Alene River, the South and North Forks thereof, and all its tributaries, or elsewhere; also, save and except and subject to streets, easements, alleys and rights of way of every kind and nature, whether the same are of record or not; also subject to reservations of predecessors in interest.

TOGETHER with all and singular the tenements, hereditaments and appurtenances thereunto belonging, or in anywise appertaining, and the reversion and reversions, remainder and remainders, rents, issues and profits thereof.

TO HAVE AND TO HOLD all and singular the said premises, together with the appurtenances, unto the said party of the second part, and to its successors and assigns forever.

IN WITNESS WHEREOF, the party of the first part has caused these presents to be executed by its properly authorized officers the day and year first above written.

INDEBTEDNESS

None

Under date of December 18, 1951, Coeur d'Alene Silver Giant, Inc., entered into an agreement with Sunshine Mining Company whereby it granted a lease on thirty-nine unpatented lode mining claims situated in the evolution Mining District of Shoshone County, State of Idaho. The lease provides for the development of the claims by Sunshine Mining Company and an equal distribution of the net income from the property.
